

# Import or Export SAPScript forms from PC or to file

Use ABAP program: **RSTXSCR**P

You can upload or download your SAPscripts & SmartForms as a text file from the local hard drive.

For example, need to copy SAP Script form from one client (512) to another client (500). Our next steps are:

Login to **Client (512)**

Goto **SE38** or **SA38** and execute the abap program: **RSTXSCR**P

Mode : EXPORT

Login to **Client (500)**

Goto **SE38** or **SA38** and execute the abap program: **RSTXSCR**P

Mode : IMPORT

or

Login to **Client (500)**

Goto **SE71** - Click **Utilities** - **Copy from client**
