

Install Multimedia codecs in Linux Ubuntu

By default, Ubuntu doesn't have full multimedia support. Because of patents and copyrights that apply in some countries.

Instruction is simple:

1. Open a terminal (Ctrl + Alt + T)
2. Paste the following code:

```
sudo apt-get install ubuntu-restricted-extras
```

3. Enter password

or press the button below

Alternatively you can use VLC Media Player which can play most of the audio/video formats:

```
sudo apt-get install vlc
```

or via Software Center
