

How to easy copy manual config from one system to another in SAP

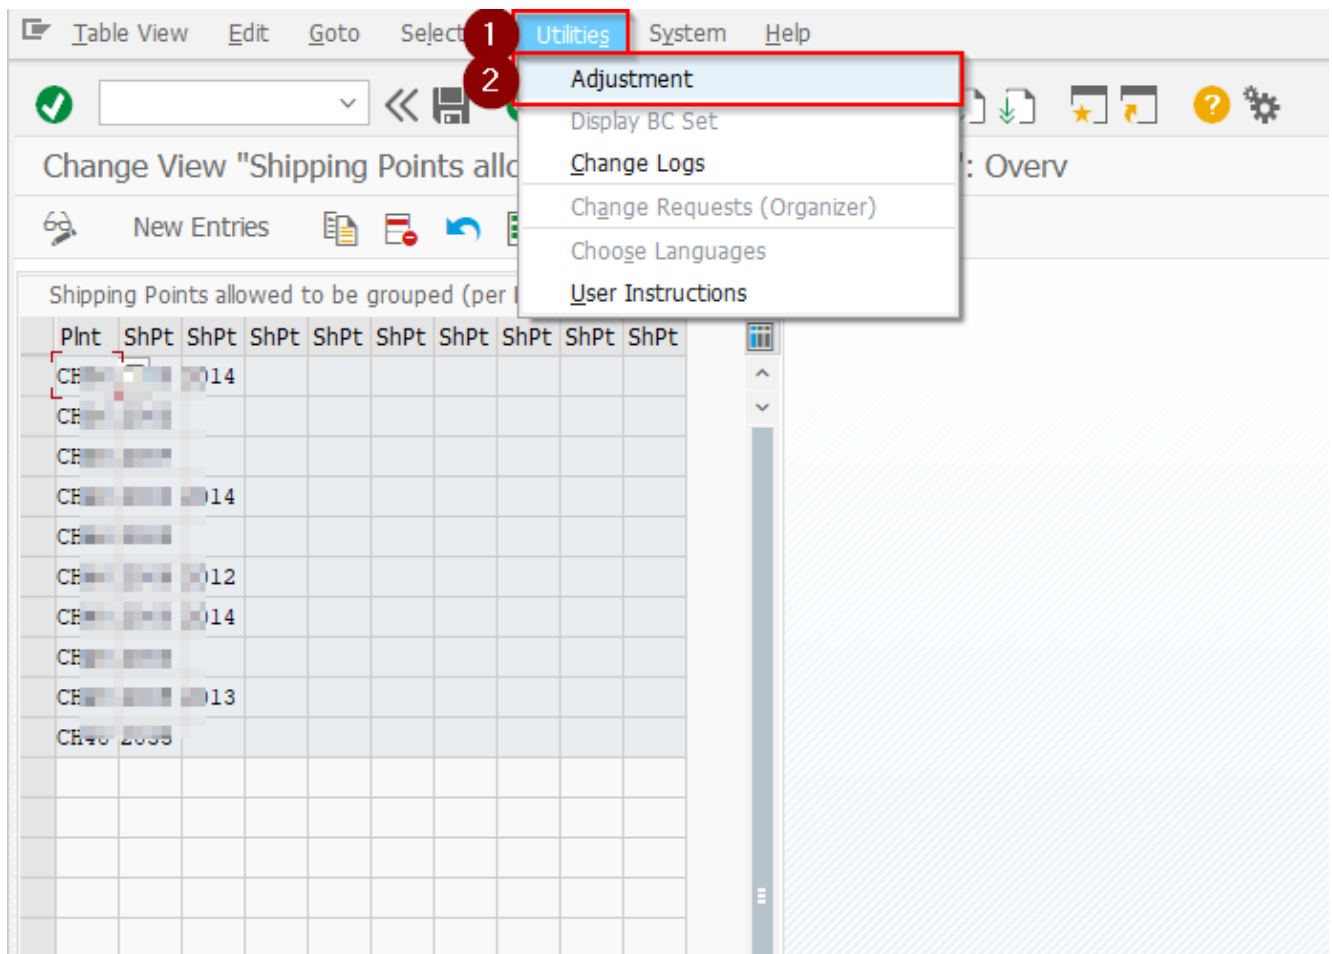

If you are looking a simple and easy way to copy entries from the custom table from one system to another or from SAP ECC to SAP S/4 HANA then this instruction to you...

So, the solution is hidden in the well known SM30 tcode. Log in to the target client and run SM30:

type table name and go to Maintain mode

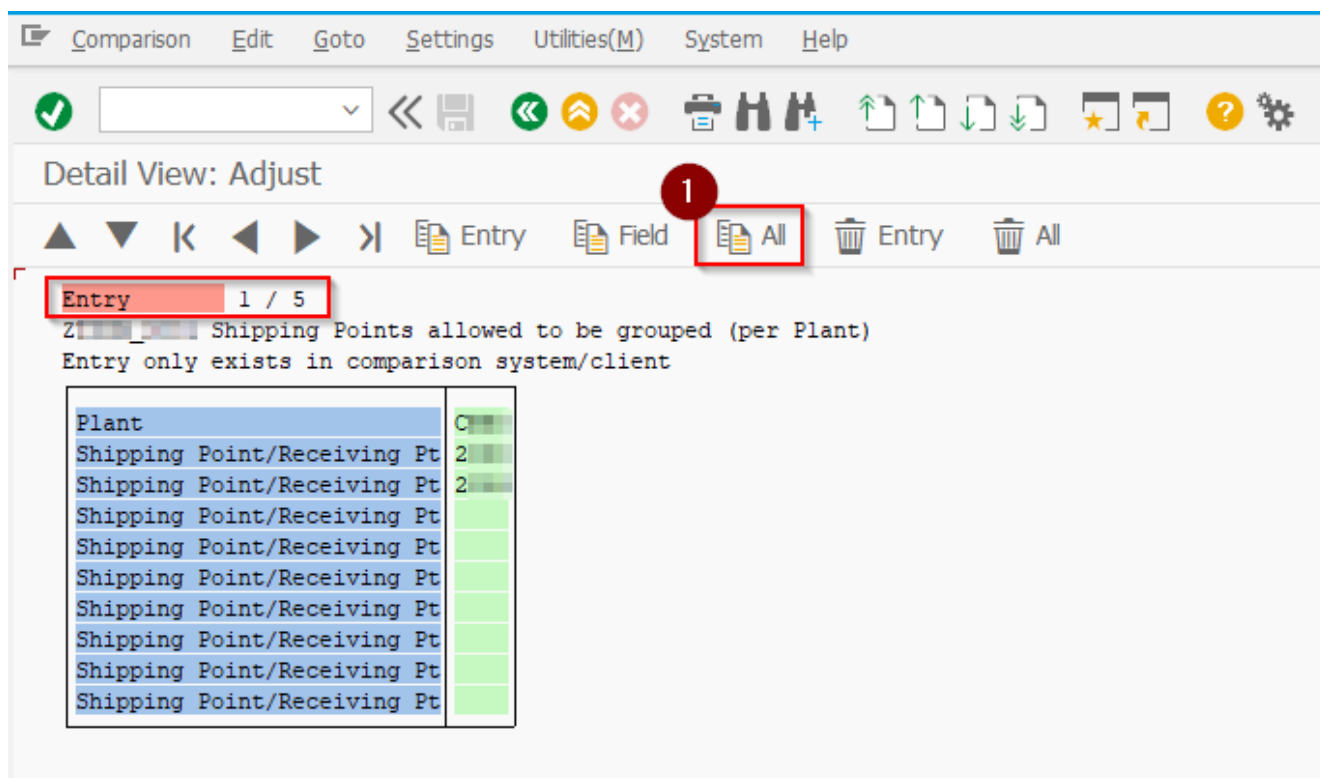

The screenshot shows the SAP SM30 'Edit Table Views: Initial Screen'. At the top is a menu bar with 'Table', 'Edit', 'Goto', 'System', and 'Help'. Below the menu is a toolbar with various icons. The main area has a title bar 'Edit Table Views: Initial Screen' and a subtitle 'Find Maintenance Dialog'. The 'Table/View' field is highlighted with a red box and a red circle with the number '1'. The field contains the text 'ZI' followed by a grid of small squares and ends with 'RE'. Below this is a section titled 'Restrict Data Range' with three radio buttons: 'No Restrictions' (selected), 'Enter conditions', and 'Variant'. At the bottom, there are four buttons: 'Display', 'Maintain' (highlighted with a red box and a red circle with the number '2'), 'Transport', and 'Customizing'.

Menu: Utilities -> Adjustment

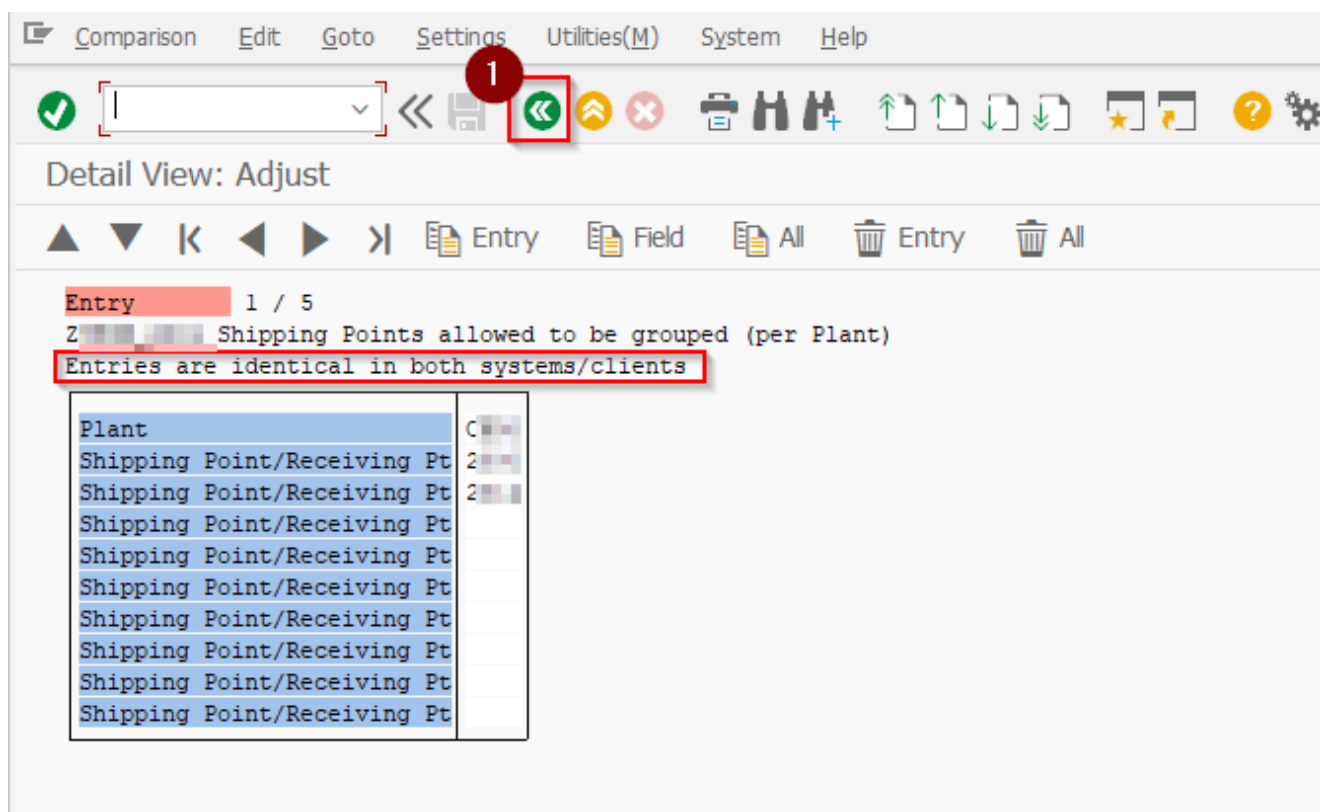

select the client from where you want to copy entries, Enter (green tick)

Press button “All”

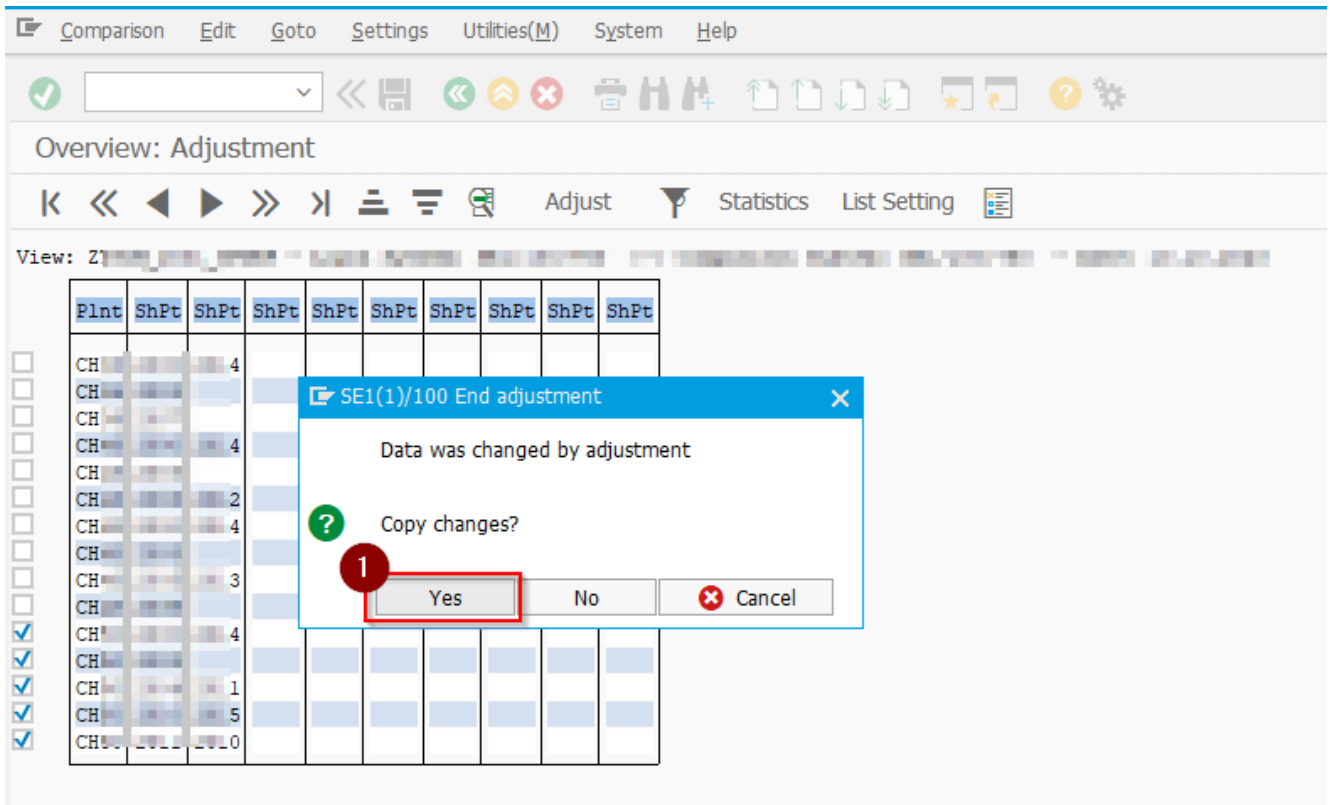

You should get confirmation that entries are identical, like this...

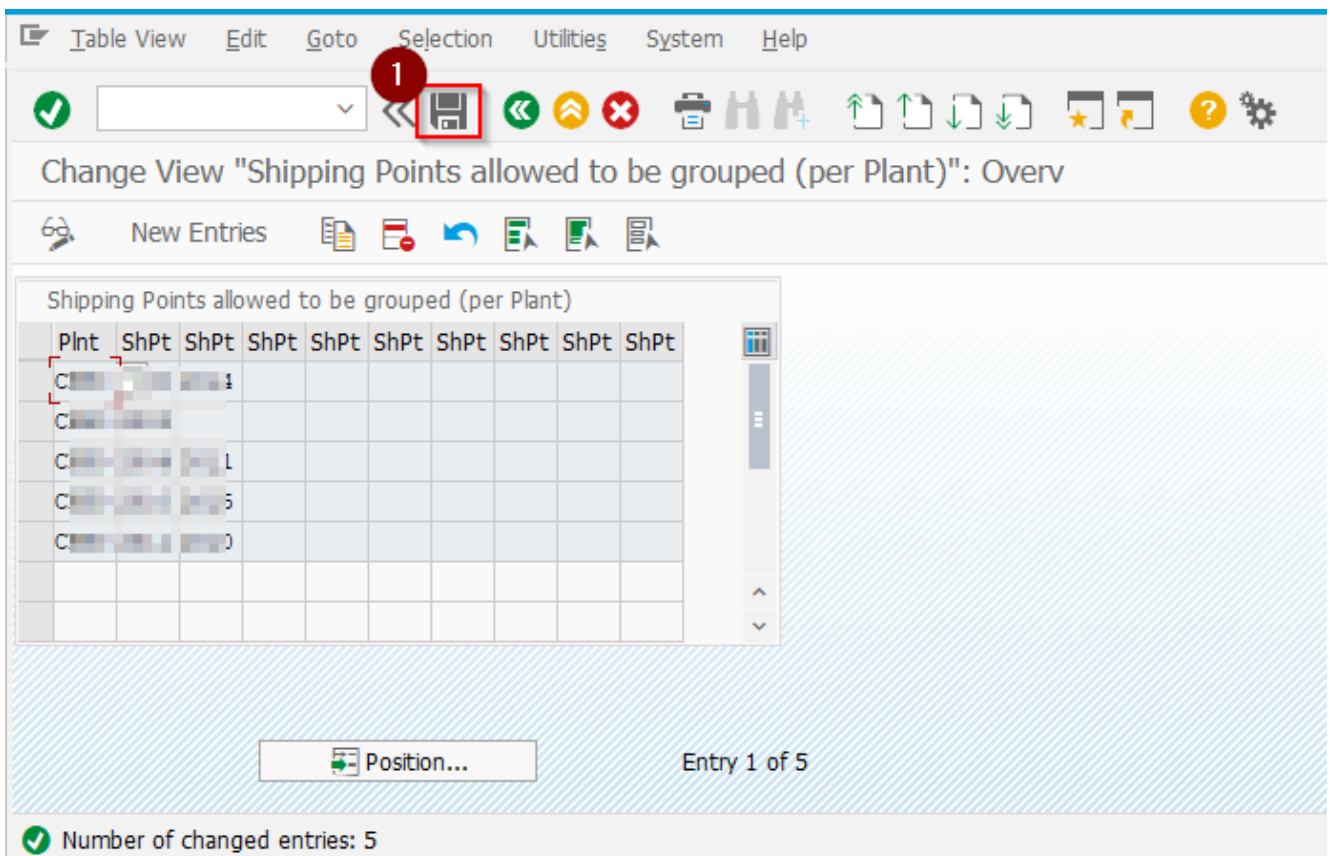

button “Back” two times

Save changes

Save copied entries

Done.
