Import or Export SAPScript forms from PC or to file

Use ABAP program: **RSTXSCRP**
You can upload or download your SAPscripts & SmartForms as a text file from the local hard drive.

For example, need to copy SAP Script form from one client (512) to another client (500). Our next steps are:

Login to **Client (512)**
Goto **SE38** or **SA38** and execute the abap program: **RSTXSCRP**
Mode : EXPORT

Login to **Client (500)**
Goto **SE38** or **SA38** and execute the abap program: **RSTXSCRP**
Mode : IMPORT
or
Login to **Client (500)**
Goto **SE71** – Click **Utilities** – **Copy from client**
