

Update Portainer CE in Docker

You will be notified of new Portainer releases in the interface. In the lower left corner you will see an orange rectangle with the text "A new version is available".

So, how to update the Portainer:

1. Download a new version of the Portainer CE

```
docker pull portainer/portainer-ce
```

2. Stop and remove old version of the Portainer CE container

```
docker stop portainer  
docker rm portainer
```

3. Start a new container

```
docker run -d -p 8000:8000 -p 9000:9000 --name=portainer --
```

```
restart=always -v /var/run/docker.sock:/var/run/docker.sock -v  
portainer_data:/data portainer/portainer-ce
```
