Andrii Marchuk

SAP WM/EWM/MM/SD/TRA Consultant | SAP SCM Logistics Team Leader | SAP ECC | SAP S/4HANA
17 years of total experience with SAP

SUMMARY

I am a highly experienced SAP professional in supply chain, logistics, and warehouse management. Currently serving as an SAP SCM Logistics Team Lead and SAP SCM Logistics Execution Solution Architect at Mettler-Toledo International, I am passionate about optimizing supply chain processes, take part in Roll-ins and driving innovation.

As a Team Leader, I am responsible for mentoring and guiding a team of logistics professionals, ensuring the timely and high-quality delivery of projects. I collaborate with cross-functional teams to align logistics processes with overall supply chain goals and drive process improvement initiatives.

In my role as an SCM LE Solution Architect, I design and develop end-to-end logistics execution solutions, focusing on system integration, scalability, and alignment with business supply chain strategies. I identify opportunities for automation and digitalization to enhance operational efficiency and successfully manage logistics execution projects.

My proficiency in configuring and customizing SAP supply chain management software, including SAP WM/EWM, SAP MM, SAP SD and SAP LE-TRA, is instrumental in delivering successful projects.

Throughout my career, I hone my skills in SAP systems, ABAP Debugging, test planning, release management, knowledge acquisition, management consulting, and various aspects of logistics and warehouse operations.

Feel free to connect with me to discuss how I can bring my expertise to your supply chain, logistics, and warehousing projects.
